

Permeable Synthetic Leather

Physical Characteristics

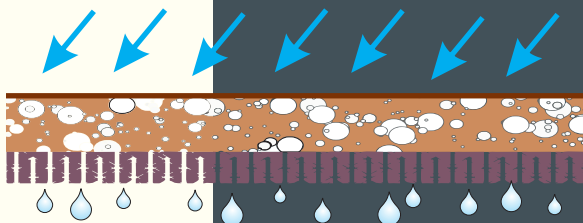

Manufactured from our special process and high quality polyurethane resins

Excellent rub and fade resistance with a natural leather finish

Excellent absorbency and anti-bacterial properties

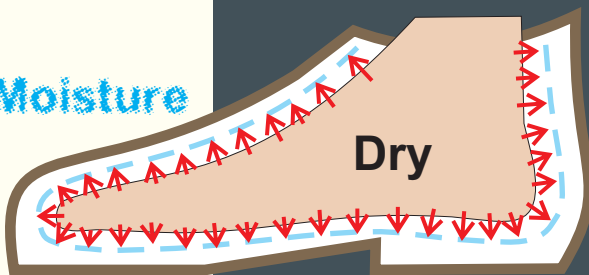

Wide range of patterns and colours to choose from

The best permeable synthetic leather on the market - compare us and see

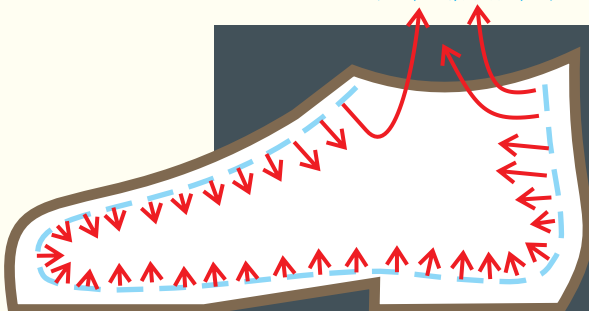

Vantaggio Kermay shoe linings allows moisture to easily pass through to be absorbed keeping feet dry and comfortable

Moisture

By using Vantaggio Kermay for the shoe inner even if the shoe upper is not permeable moisture is absorbed so the feet stay dry!

Moisture

When the shoes are later removed the absorbed moisture quickly evaporates

Try Vantaggio Kermay for your shoes and keep feet dry and comfortable!
