

Avantage™ Micro Fiber Leather

Vantaggio[®]
Chemical Co., Ltd
www.vantaggio.us

A Natural Leather Replacement

Vantaggio in conjunction with LongShang (Japan) is proud to present the Avantage™ range of Micro fibre leather which is both in texture and appearance comparable to natural leather while preserving the functionality of synthetic leather.

Avantage™ (a-VAN-tage) is well suited as a natural leather replacement. Applications for Avantage™ range from automotive seats, garments, bags, shoes, upholstery, sportswear or wherever natural leather is used.

Avantage™ is naturally stain resistant and so is easier to clean than natural leather.
Avantage™ makes your living room sofa suites children and party proof!

Vantage™ is manufactured by a special proprietary manufacturing process with special emphasis in the protection of our environment.

Why not make our Avantage™ your Advantage?
